WANT TO

Tech Stack

Python flask

MY SQL
database

OPEN CV

The whole web application is based and is running on python flask

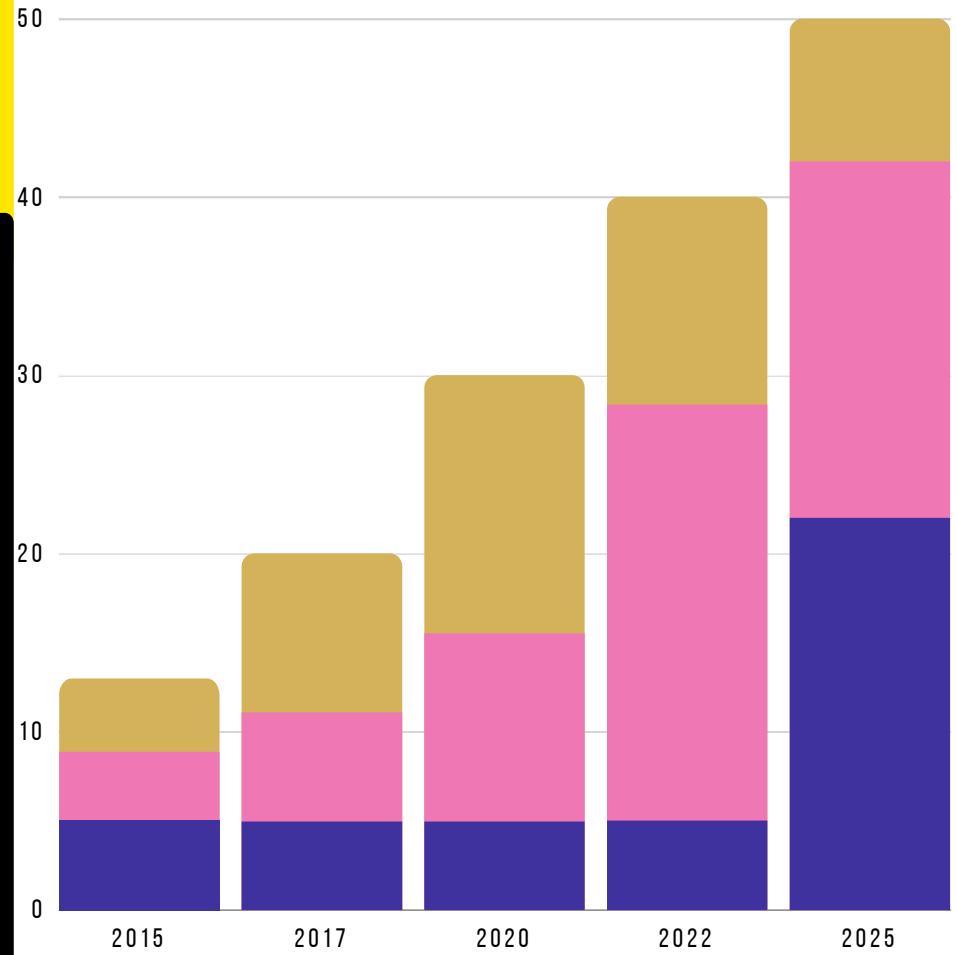

Persistence

Used for authenticating the person who is getting interviewed

GROWTH IN REAL WORLD

This is the graph that is provided that shows the growth of online teaching applications:

- There has been a steady growth over years in the case of knowledge since the year 2015 but the only thing that has reduced is the way the people are approaching to their HR interviewers
- Over the time there are a lot of people who fail to impress their interviewers even after having a good knowledge over their domain
- This inefficiency can be **NO WILL be ENCONTRERED by the FREE MOC INTERVIEWING system provided by our website.**

THANK YOU
